

## *Letter from Santa*

Dear Ryland,

I have been watching you and noticed that sometimes you get bored when Tayden is doing his homework. So, I have made this Special Homework Box JUST for you! It is only for you to use when you are doing homework. That includes the homework you get from your school, and the letters that your mommy would like you to practice writing.

I have made you a Magical Snack Tin that stays inside your Homework Box. Your mommy or daddy will fill it with a surprise snack that will turn magical when it is placed inside the tin. You may eat this snack while you are doing your homework, if you like, and it will give you magical energy to finish your homework.

Please do your homework at the same time as Tayden. This will help both of you stay focused without disturbing each other. Tayden needs it to be quiet so that he can do his homework. Thank you for understanding and being a great little brother.

Please keep your Homework Box nice and tidy and always make sure to put all your supplies back in the box each time you are finished with your homework.

Ryland, you are such a hard worker and help out very nicely at school. You are a very smart boy! Continue to be a sweet boy and make sure to give your mommy and daddy lots of hugs and kisses!

Love,  
*Santa Clause*
