Kimberly DeMille is a Board Member and Past President of the California Kindergarten Association and a first grade teacher in Carlsbad, California. She has been teaching for 22 years, 16 of which have been spent doing what she is passionate about: teaching kindergartners! Drawing from Robert Fulghum's first lesson learned in kindergarten: SHARE EVERYTHING, she is committed to passing on her knowledge about best teaching practices. Kimberly has served as a mentor teacher to numerous teacher candidates and has led professional

development workshops for the Capistrano Unified School District, California Kindergarten Association, and most recently for the KinderStar International School in Ho Chi Minh City, Vietnam.

Work Smarter, Not Harder!

Did remote learning leave you EXHAUSTED and stretched thin? Then, this is the session for you! This one hour workshop will guide you through the process of developing a remote learning program that is easy to implement and easy to follow. By creating a learning "Menu" for each week, Kimberly will show how you can provide students and parents with clear expectations and easy access to learning materials. She will discuss the importance of TEAMWORK and sharing the workload. Kimberly will encourage participants to reach out to each other in this webinar and in other online communities to find colleagues who are using the same adoptions and show how doing so can make the load more manageable. Crucial to the success of this remote learning model is the "Morning Message". She will explain how to create a morning message that guides students through the learning Menu. Components of the "Menu" that will be discussed are: creating hyperdocs, using Screencastify to record lessons, and using Seesaw & Flipgrid to assign activities essential to skills practice and assessment. Come discover how to work SMARTER & not harder!
